

Idaho Homeschool Quick Start Guide

Overview

Idaho is one of the least restrictive states. No notice, no testing, no records required by law.

Step 1: Withdraw (If Applicable)

If your child is currently enrolled in public school, send a simple withdrawal letter.

Step 2: Choose Curriculum

Select core subjects such as math, English, science, and history. Any curriculum is acceptable.

Step 3: Create a Weekly Schedule

Plan 3–5 days per week of instruction. Idaho does not prescribe hours.

Step 4: Recommended Records

Though not required, keep attendance, reading lists, work samples, and progress notes for your files.
